iSAPPOS
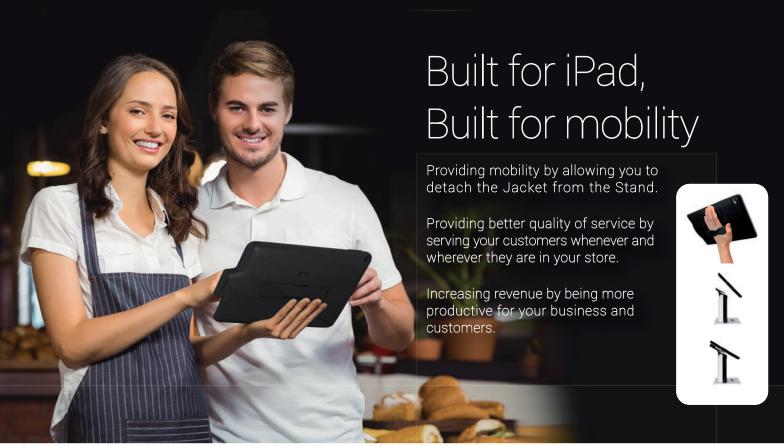

We Provide the FINEST Peripherals to
Enable Apple's iDevices to Do POS

Your Best POS Technology Provider

iPad POS Stand

Built for iPad, Built for mobility

Providing mobility by allowing you to detach the Jacket from the Stand.

Providing better quality of service by serving your customers whenever and wherever they are in your store.

Increasing revenue by being more productive for your business and customers.

Flip-over design, interact with ease

We think a great business relationship can be built with transparency and interactive communication.

Thanks to the flip-over display design on our Stand, you can easily create a more intimate two-way interaction that can help gain trust and more direct feedbacks from your customers.

Built-in Printer

Model C features a fully integrated Bluetooth printer, allowing you to print from the stand, or anywhere in your store.

With it's thermal print and auto-cutting technology, the Model C offers a simple to use, no non-sense way to print from your iPad.

Connect Peripherals

By providing additional ports, the stand allows you to connect serial peripherals or even a printer driven cash drawer.

Security

Securely lock your iPad with our built in electronic locking mechanism.

With TouchID integration, you can unlock your iPad with the tap of your finger.

We provide the FINEST Peripherals to

Enable Apple's iDevices to do POS

Our design and engineering expertise extends from main stream POS terminal solutions to Mobile POS and Payment Terminal Solutions required by today's businesses.
